LO: To spell words appropriate for formal speech and writing

Usually, in most day-to-day situations, speak in an informal way. However, in writing, sometimes we are writing for a formal audience, for example to a politician or a headteacher for example. When this is the case, we need to use formal language.

LO: To spell words appropriate for formal speech and writing

The words in bold are your spellings; these are examples of formal language. The words to the left (informal) will be the words we will say during the test to help you remember their formal partner!
